

TRAKZIO 10000 kg - 4 m/min, 3Ph

Electric winch 10000 kg. Range of electric winches with a large winding capacity allowing them to address a wide range of uses. For pulling/hauling applications only.

Use:

- Pulling/Hauling applications only
- Industry
- Building and public works
- Launch of bridges
- Rail: moving wagons or trains
- Heavy loads pulling
- Conveyor belt tensioning

Made in France. Comply with Machines directive 2006/42/EC.

Technical properties

- Rugged and reliable parts.
- Wall mounting possibility.
- Steel mechano-welded structure shot-blasted and painted.
- Automatic lack of current brake.
- Asynchronous motor. IP 54 Protection.
- 230/400 V - 50 Hz three-phase motor. P = 5,5 kW.
- Electric control box mounted on the winch and 3 dead turns detector limit switch included.
- Low voltage control protects the user from electrical risks : model with frequency inverter. Models with 1 speed available. Models with Dynamic Power Optimization (DPO) available: consult us.
- Reliable electric and electronic components.
- Manual drum release when no load, ergonomic and secure.
- Thermal circuit breaker.
- Limit switch optional.
- 3 buttons pendant control (Wind - Unwind - Emergency stop), removable (3 m long cable).
- Standard drum length: 800 mm.
- Options available: bottom frame, tubular protection, radio control... : consult us.

HUCHEZ's advice

A large winding capacity allowing them to address a wide range of uses. Reliability, numerous options available. Strong points: manual drum release when no load ergonomic and secure, its 3 dead turns detector limit switch.
